SPECIAL GROUP COURSES FOR ADULTS

Alhambra Instituto has for many years offered institutions, organisations and groups from the same country or area a special group arrangement.

These group courses can be for general Spanish students, teachers groups or groups which need Spanish for a special purpose.

We work with you to put together the best Spanish programme suited to your needs.

Closed Group programmes are tailor-made to your requirements and as such prices can only be quoted once your group details and requirements have been defined.

Please email us giving details of start date, number of weeks, number of students and their ages, number of accompanying teachers/group leaders, tuition requirements and number of lessons, accommodation details and preferred activities including requests for any particular event such as company, educational or institutional visits.

Special group courses for adults

CONNECTING YOUR BUSINESS TO THE TECHNOLOGY RESOURCES YOU NEED

Courses may be either General Spanish, or Spanish for Specific Purposes or a blend of both and may be at any level from Beginner to Advanced. Closed Group courses may also integrate a project such as creating a class magazine or newspaper, a radio/TV show or conducting a survey.

Alhambra Instituto Malaga provides tailor-made Spanish courses and packages for both open- and

closed-groups of adult and junior students. Over the years we have built up considerable experience in working with adult groups who request specialised Spanish language programmes.

Our packages include course fees, airport transfers, accommodation options and optional social and excursion packages. We can offer programmes to groups studying specific topics of interest.

flexible solutions for your group needs

SHORT PLACEMENT TEST

In order to meet your precise needs, it is important for us to find out exactly what your needs are. Before coming to Alhambra Instituto in Malaga - Spain, you will be asked (all group's components) to complete a short placement test and provide a brief summary of how you use Spanish and what you consider your strengths and weaknesses to be.

ACCOMMODATION

Normally all the groups have Homestay: Spanish families are renowned for their hospitality, sense of humor and enjoyment of life. Students usually feel completely at home with their families and enjoy this unique opportunity to fully integrate into Spanish family life.

The intimate relationship with the family encourages the natural use of every-day Spanish. Most families live very close to the school and all of them are located in less than 10-15 minutes walking distance.

CUSTOM SPANISH COURSE

These group courses can be for general Spanish students, teachers groups or groups which need Spanish for a special purpose.
